Participant Consent Form

Thank you for your interest in this project. This project aims to investigate developing a computer system to recognise gestures and body language using images provided by a webcam and cutting edge AI technology. The gestures will be translated into avatar animations in a 3D virtual environment (Grapevine) for use within the application.

Please read the following statements carefully and tick the appropriate box:

	YES	NO
I have read the information sheet about this project	Y	
I agree to take part in this project	Y	
I consent to being recorded for data generation for this project	Y	
I consent to being recorded on video for data generation.	Y	
I understand my right to withdraw and/or destroy my data from this project at any time	Y	
I am over the age of 18	Y	
I agree that data I provide (e.g. pose keypoint data) may be published in anonymised form	Y
